Products Detail

Pneumatic Spot Welding Machine

Features:

1. Manufactured in accordance with international ISO Standard.
2. European CE Certified.
3. European Type Microprocessor Welding Control has transparent safety cover to protect a keypad and has a lock to allow only authorized personnel to access the program.
4. Welding Control maintains main parameters such as welding current; weld time, off time, etc. with digital accuracy
5. Any of 23 weld schedules can be easily selected for execution.
6. Rigid Frame of the Machine allows the use as Projection or Spot welder.
7. Improved water-cooling system guarantees flawless performance in heavy-duty applications.
8. Machine is painted with Lead-Free paint.
9. All materials used in design are environmentally friendly.

Can be customized

we can make various changes to allow the machine adapting to different workpiece and customers requirement.

Example picuter, the extended arm for larger workpiece.
