Products Detail

Semi-automatic Crimped Wire Mesh Weaving Machine

This machine is the use of a large diameter wire by ginning machines for rolling into shape, weaving various mechanical specifications for the square hole sieve series Weaving Machines. The product structure compact, easy to operate, can be woven mesh 2 MM--50MM wire diameter 1 MM--8MM, weaving width of 1-4 meters, the aircraft products are widely used in mining for classification purposes sieve (commonly known as the Mine Screen net), the aircraft also known as Mine screen loom.

Technical Parameter:
