Products Detail

stainless steel wire rope woven mesh

The stainless steel wire rope woven mesh is rhombus mesh, has excellent flexible performance, virtually indestructible, most impacting-resistant and breaking resistant force, most resisting rain, snow, hurricane.

The stainless steel wire rope woven mesh material is used high quality stainless steel wire cable, the stainless steel grade includes AISI 304 or AISI 316 material group. The structures of the stainless steel wire cable have 7 x 7 and 7 x 19. The standard stainless steel wire rope woven mesh diameter includes 1/8", 3/32", 1/16", and 3/64", the standard mesh opening size includes 1" x 1", 1-1/2" x 1-1/2", 2" x 2", 3" x 3" and 4" x 4". The standard mesh angle is 90°.

What are the advantages of stainless steel wire rope woven mesh?

1. Made of high quality stainless steel wire rope
2. Material group : AISI 304, 304 L, 316, 316L
3. Soft to the touch, prevent the bird feather and animal skin
4. Light weight, but strong
5. Life span more than 30 years
6. Environmental degradation resistant, say, corrosion, ultraviolet
7. Resists chewing by rodents and other pests
8. Excellent flexibility for tough installations

As the material is virtually indestructible stainless steel, then it can be safely contain any species on land, in the air indoors or out. And the weave opening, we can infinitely customizable to meet your exhibits exact specifications. No matter how large, how small, or how cunning you specimens are, we assure their complete security.

We invite you to consider Stainless Steel Wire Rope Mesh as a material to be incorporated in you design scheme.

Shengmai has been a pioneer wire mesh manufacturer and supplier in China. If you have any questions about stainless steel wire rope woven mesh, please don't hesitate to contact us. Our professional and experienced staff will resolve your troubles.
